

Hacienda Studios - Español & Hacienda Tiles

These tiles are made by the same process as our mosaic counterparts, with the same high-endurance characteristics. The traditional Español & Hacienda tiles were usually made of clay and look similar to those shown here. However, due to our special process using concrete, we create a superior product without sacrificing the terra cotta appearance, as you can see. Upon request, we can also create these tiles in a variety of special colors.

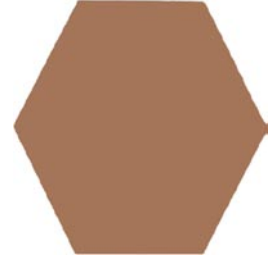

Español Tiles
